

# IRONMAN 4X4 VEHICLE PROTECTION REAR BUMPER TOW-BAR

## Ironman 4x4

### Product Concept, Design, Development, Testing & Evaluation

For more than 60 years, Ironman 4x4 has been and continues to be a leader in 4x4 accessory design and innovation. We develop and manufacture products primarily focussed on people and businesses who use their vehicles for work, recreation or fleet applications.

Our products are exported to more than 160 countries and have become the choice of 4x4 owners throughout the world, including many of the world's largest defence forces.

All Ironman 4x4 product evolves from concept through CAD desing, to development, testing and evaluation. Our products are rigorously tested in the harshest conditions on earth... The Australian Outback!

This guarantees that Ironman 4x4 accessories fitted to your new Jeep are of the highest quality, having been thoroughly tested, ensuring that you get there and back safely.

All of the above makes us live up to our company vision of delivering quality products that are *Safer, Stronger, Smarter.*

## Rear Protection Bumper Tow-Bar

Designed to provide maximum protection your vehicle's tub, whilst providing convenient high lift jack points, integrated tow hitch and maximising clearance, the Ironman 4x4 Rear Protection tow bar is the ultimate in rear protection and styling for your dual cab 4x4.

Made from thick 4mm steel to ensure maximum strength and protection, the bars are coupled with stylish side tubing that provides protection for the vulnerable rear sills and sides of the tub as well as re-enforcing the bar.

Built into the bar are rear tow points, as well as two high lift jack points allow for the safe and stable application of high lift jacks on either side of the vehicle. Also included is a 50mm tow ball and tongue.

The integrated hitch receiver is rated for a towing capacity of 3500kg (check manufacturers maximum towing capacity for your vehicle's application) and there is a (separately sold) plug and play wiring loom to hook up to the vehicle, ensuring simple no cut installation for seamless compatibility.

Applications available for most late model 4wd vehicles. Check our vehicle listing for availability.
