

IRONMAN 4x4 VEHICLE PROTECTION SNORKELS

Designed and engineered in Australia, the Ironman 4x4 Snorkel is the ideal safeguard against water and dust into the engine when travelling Off-Road.

Ironman 4x4

Product Concept, Design, Development, Testing & Evaluation

For more than 60 years, Ironman 4x4 has been and continues to be a leader in 4x4 accessory design and innovation. We develop and manufacture products primarily focussed on people and businesses who use their vehicles for work, recreation or fleet applications.

Our products are exported to more than 160 countries and have become the choice of 4x4 owners throughout the world, including many of the world's largest defence forces.

All Ironman 4x4 product evolves from concept through CAD design, to development, testing and evaluation. Our products are rigorously tested in the harshest conditions on earth... The Australian Outback!

This guarantees that Ironman 4x4 accessories fitted to your new Jeep are of the highest quality, having been thoroughly tested, ensuring that you get there and back safely.

All of the above makes us live up to our company vision of delivering quality products that are **Safer, Stronger, Smarter.**

Snorkels

4WD's fitted with Ironman 4x4 Snorkels benefit from increased airflow to the engine and a raised air intake to minimise the chances of dust and water ingress.

Featuring a high flow 4" air intake engineered to ensure optimal efficiency and cleaner, cooler airflow into the engine.

The higher air intake minimises the risk of water damage through water crossings.

Durable UV Stabilised Material
RAM-Air Head
Vehicle Specific Design

Applications available for most late model 4wd vehicles. Check our vehicle listing for availability.
